## INVESTIGATIVE REPORT

**To:** Case File # 32-12-0008

**From:** S/A Stephen L. Howell

**Date:** May 11, 2012

**Subject:** Preliminary Inquiry – Alleged Dead Voter Fraud – 2010 SC General Election

---

On January 13, 2012, South Carolina State Law Enforcement Division (SLED) Chief Mark Keel received correspondence from South Carolina Attorney General Alan Wilson. In his letter (**Attachment 1**) dated January 11, 2012, Attorney General Wilson requested that SLED conduct a preliminary inquiry into allegations that votes were cast in the names of deceased individuals in the state election process. In response to this request, Chief Keel sanctioned the formation of a multi-regional task group within SLED, coordinated by Lt. William Littlejohn and staffed by Agents Elizabeth Corley, James Flowers, Stephen Howell, and David Williams, each representing one of the four SLED Investigative Services Regions.

On January 31, 2012, the SLED task group met with South Carolina Election Commission (SEC) Executive Director Marci Andino and SC Attorney General's Office Special Investigator Pete Logan at the SEC Office in Columbia. It was noted that information provided by the SC Department of Motor Vehicles (SCDMV) indicated that a total of 953 votes had been cast in the

names of deceased individuals. Special Investigator Logan stated that he had previously interviewed SCDMV Senior Applications Analyst Darl Neiswonger prior to this meeting in reference to the origin of the 953 listed votes (**Attachment 2**). Director Andino clarified that the 953 votes called into question by the SCDMV analysis were not the result of a single election, but rather the sum of questioned votes spanning seventy-four elections over approximately seven years (April 2005 to present). Director Andino further advised that, in an effort to provide substantive and timely answers to questions regarding alleged dead voting, she had directed her staff to begin the process of collecting information on the SC General Election held on November 2, 2010, in which 1,365,480 votes were cast. She noted that this election encompassed 207 of the 953 questioned votes and was considered by the SEC to be a representative sampling of any voting irregularities. Copies of the documentation collected, as well as a copy of Special Investigator Logan's interview of Director Andino (**Attachment 3**) and her written response (**Attachment 4**) to Attorney General Wilson referencing the SEC's internal findings and conclusions were later provided to the SLED task group.

The SEC concluded that 91 cases of the 207 questioned votes could be attributed to "name recognition errors" on the part of the respective poll managers. This clerical error would occur on the voter registration list for example when a father who was deceased but whose name still appeared on the list would be marked as having voted when his son of the same name had, in fact, cast the vote. Another example of this type of error would be a poll manager incorrectly marking the name of the person who voted. In these cases, the correct name typically appears on the poll list where the voter signs to indicate that they voted. The SLED task group reviewed the SEC documentation and identified an additional vote which appeared to belong in this category, bringing the total in this grouping up to 92 (**Attachment 5**).

The SEC discovered six cases (**Attachment 6**) of the 207 questioned votes which were the product of another form of clerical error. This error was produced when a poll manager began to mark the wrong individual as having voted, corrected themselves, but failed to completely remove the marks they had begun to make in the wrong location. These marks would later be picked up in the scanning process and give a false indication that the individual associated with

that line had voted. The SLED task group reviewed the documentation provided by the SEC on these votes and noted the markings indicated by the SEC.

The SEC concluded that 56 cases (**Attachment 7**) of the 207 questioned votes were a product of what they termed "bad data matching". It appeared to the SEC that the SCDMV ran only the social security number of the voter against the death file. The vote was considered to have been cast in the name of a deceased voter because the social security number of the individual voting matched that of a deceased individual. The SEC stated in their conclusions; however, that the names and dates of birth in the death file did not match the names and dates of birth for the voter in question. Therefore, the SEC records for the living person who voted were inaccurate, because the social security number associated with a deceased person was erroneously entered as belonging to the living voter. The SEC election records, in these cases, showed that a living voter, with a name and date of birth not matching that of the deceased individual, did vote in the 2010 SC General Election.

The SEC identified five cases (**Attachment 8**) of the 207 questioned votes that resulted from a clerical error involving the poll manager marking the wrong individual as voting absentee. The SLED task group reviewed the provided documentation and found that in three of the cases, requests for absentee ballots were made by individuals appearing next to the deceased person on the voting list who, in turn, was given credit for the vote. The two remaining cases involved deceased individuals given credit for voting absentee on the registration lists when no records could be located that absentee ballots were ever actually requested in their names.

The SEC discovered three cases (**Attachment 9**) of the 207 questioned votes where it appeared that absentee ballots had been issued in the wrong name. The SLED task group reviewed the documentation provided and found that in two cases, the voters signed their own names to absentee ballot requests that were issued in the names of other individuals. The remaining case involved an absentee ballot being issued in the name of a deceased person to a living voter of the same name.

The SEC investigation revealed that 32 cases (**Attachment 10**) of the 207 questioned votes were a result of “scanning errors”. The SEC stated that when the voter registration lists are scanned, voters are sometimes given credit for voting in error due to the sensitivity of the scanners used. In the cases involving votes attributed to “scanning errors”, there is no record in the SEC databases that the voter actually voted.

The SEC investigation revealed that three cases (**Attachment 11**) of the 207 questioned votes were the result of voters who requested absentee ballots, but died prior to the election. The SLED task group looked at the supporting documentation and noted that, in two of these situations, the absentee ballots were never returned. In the remaining case, the voter died the day prior to the election, and their absentee ballot was returned and counted.

The SEC investigation identified ten cases (**Attachment 12**) of the 207 questioned votes as being “inconclusive”. Agents from the SLED task group investigated these votes further with the following results:

Arthur E. Gose, Jr. (**Attachment 13**) – This vote was further investigated by S/A Howell who found that the deceased father was given credit for voting when his son of the same name, who was not registered to vote, actually cast the vote.

Ed Johnson (**Attachment 14**) - This vote was further investigated by S/A Howell who exhausted available leads and was unable to provide any additional information regarding this vote.

Zeb Thomas (**Attachment 15**) – This vote was further investigated by S/A Howell who found that the deceased father was given credit for voting when his son, of the same name, actually cast the vote.

Joe B. Dove, Jr. (**Attachment 16**) – This vote was further investigated by S/A Corley who found that the deceased father was given credit for voting when his son, of the same name, actually cast the vote.

Elbert Thompson (**Attachment 17**) - This vote was further investigated by S/A Corley who exhausted available leads and was unable to provide any additional information regarding this vote.

Rebecca Middleton (**Attachment 18**) – This vote was further investigated by S/A Williams who exhausted available leads and was unable to provide any additional information regarding this vote.

James Herbert Green, Jr. (**Attachment 19**) – This vote was further investigated by S/A Williams who found that the deceased father was given credit for voting when his son, of the same name, actually cast the vote.

Doris M. Lee (**Attachment 20**) – This vote was further investigated by S/A Flowers who found that the vote in question was cast in the wrong precinct and credit was given to a deceased voter with the same first and last name.

Jacob A. Holmes (**Attachment 21**) – This vote was further investigated by S/A Flowers who found that the deceased father was given credit for voting when his son, of the same name, actually cast the vote.

James R. Davis, Jr. (**Attachment 22**) – This vote was further investigated by S/A Flowers who found that the deceased son was given credit for voting when his father, of the same name, actually cast the vote.

The SLED task group identified three additional votes requiring further investigation. Agents investigated these votes with the following results:

Thomas Williams (**Attachment 23**) - This vote was further investigated by S/A Howell who exhausted available leads and was unable to provide any additional information regarding this vote.

Paul Smith (**Attachment 24**) – This vote was further investigated by S/A Flowers who found that the deceased father was given credit for voting when his son, of the same name, actually cast the vote.

James L. Warnock (**Attachment 25**) – This vote was further investigated by Lt. Littlejohn who exhausted available leads and was unable to provide any additional information regarding this vote.

A copy of this report will be provided to the proper reviewing authority.

Dear Chief Keel:

I am following up as a result of our meeting this morning with you and the Director of the Department of Motor Vehicles, Kevin Shwedo. At that meeting, we were fully briefed by the Director to the effect that DMV's analysis of data reveals that there are numerous discrepancies concerning people who have voted in recent elections who may not have been entitled to vote.

Most troubling is the fact that over 900 persons, who were deceased at the time of the elections, appear to have "voted" in those elections. In addition, I have asked Director Shwedo to review his data for other potential voting irregularities.

No right is more precious than the right to vote and no process is more important in terms of integrity than the election process. Voter fraud cannot be tolerated. Therefore, I respectfully request that SLED conduct a preliminary inquiry into these voting irregularities.

Sincerely,

Alan Wilson

**MEMORANDUM**

**TO:** The file  
**FROM:**  Lansing "Pete" Logan, Special Investigator  
**RE:** Interview of Darl Neiswonger

---

On January 25, 2012 and April 5, 2012, Darl Neiswonger, Senior Applications Analyst, SC Dept. of Motor Vehicles (SCDMV), 10311 Wilson Blvd., Blythewood, SC 29016, telephone (803) 896-0570 and (803) 530-6459, was interviewed at which time he was advised of the identity of the interviewing investigator and the nature of the interview. Neiswonger thereafter furnished the following information:

Every Sept. the DMV is required to furnish a list of individuals, who have active South Carolina driver's licenses and other credentials to the SC Election Commission. This past year the list containing over 3,000,000 names was furnished to the Election Commission on Sept. 18, 2011.

Neiswonger stated that the SC Election Commission processed the list of individuals furnished to them and determined that there were 239,333 individuals listed in the Election Commission files that were not on the DMV driver's license files. As a result, the Election Commission furnished DMV with a file containing the 239,333 individuals. The identification data, that was listed for these individuals, consisted of the name, date of birth, social security number, current address and date last voted.

Neiswonger advised that his department used the list of names to compare with other files in their system, which contains social security information and Bureau of Vital Statistics. They created a table in the Production Phoenix Data Base and imported the 239,333 individuals' names.

Neiswonger advised that a computerized comparison identified 37,295 deceased individuals from the list of 239,333 that was furnished to them by the Election Commission. After identifying the deceased individuals, that left a total number of 202,038 names that, according to Neiswonger's records, made up the following:

1. 58,241 individuals, whose license expired.
2. 96,017 individuals, whose licenses were canceled and, out of this number, 91,466 had moved to another state.
3. 27,272 individuals had no driver's license.
4. 20,508 individuals were active but no specific reason as to why they were not matched by the Election Commission.

Neiswonger further advised that, out of the 37,295 deceased voters, there were 953 individuals, who voted and were listed as deceased. Some of these individuals, who reportedly voted, could have died the day that they voted, could have voted absentee or it could have been an administrative error.

Neiswonger advised that the 37,295 individuals voter, who were listed as deceased, were matched only by social security number in the system. The data system also matched the deceased voters with the date last voted and this came up with the number 953 that appeared to have voted but were deceased.

Neiswonger advised that, the matching of the names in his system, utilized social security numbers, date of birth, last name and sometimes a portion of the first name. The Bureau of Vital Statistics information is not always received on a timely basis as is the information from the Social Security Administration.

Neiswonger advised that, in response to a specific request from Investigator Pete Logan, he prepared a memorandum describing the process used to derive the list of voter information that may have been used to cast a vote on or after the person died (copy attached).

Neiswonger made available a two (2) page document explaining the breakdown of the 239,333 individuals not listed in DMV files, along with the vital statistics.

**Re:** Email request from Pete Logan to describe the process used to derive the list of voter information that may have been used to cast a vote on/after the person died.

---

September 18, 2011 DMV produced a list of Citizens with active driver's licenses for the Election Commission. DMV is required to furnish this list every September.

The Election Commission processed the file created by DMV. They found 239,333 individuals on their voter files that did not have a corresponding record from DMV.

Election Commission gave DMV a file containing the 239,333 records.

DMV used that file:

1. Created a table in our Production Phoenix database and imported the 239,333 records. DMV attempted to preserve the majority of fields included on the data.
2. Identified Deceased individuals (37,295).
  - a. Matched Election Commission individuals by SSN and later by Date of Birth, Last Name and a portion of the First Name to records DMV has from Vital Stats (see note 1)
  - b. Electronically verified Social Security Numbers, Name and Date of Birth with Social Security Administration (see note 2). SSA returns several possible statuses. These statuses include a verification of the customer demographic information. Possible errors with the name or date of birth. SSA also sends a notification if their records indicate a customer is deceased.
3. The Election Commission file included a column "DATE\_LAST\_VOTED\_CCYYMMDD". We compared this value to the DOD (Date Of Death) from the Vital Stats data captured in the Phoenix Database. This comparison was only performed when both data sets had exactly the same Social Security Number. If the DOD was on or before DATE\_LAST\_VOTED\_CCYYMMDD the individual details were included on the report.

Note 1: SC Vital Stats provides DMV with a periodic file containing a list of individuals reported deceased since the last file was provided. SC DMV stores these records in the Phoenix Database. DMV also uses this information to update our customer records.

Note 2: DMV only validated records found in the Phoenix database, bypassing those previously validated by SSA.

The Election Commission reported 239,333 individuals as not having an ID or DL compared to the file provided by DMV. The file we provide to the SEC must meet certain criteria: US citizen, over the age of 18, active credentials (we do not send cancelled or expired records). Out of the 239,333 customers provided from the Election Commission, the DMV determined that 22,928 individuals are deceased based on the vital statistics' "death file". This file includes deaths from 2005 to January, 2011. These customers were compared by matching a social security number. If we additionally compared these files using date of birth, last name and a complete or partial first name without a SSN match, we could add another 2,038 customers.

Out of the 239,333 individuals, DMV sent 177,841 records to the Social Security Administration for SSN validation. These 177,841 records had a matching SSN on the DMV file, but the SSN had not been validated with the SSA. Of those records, SSA reported a "deceased" indicator for an additional 12,329 customers. As it stands, it appears approximately 37,295 individuals are deceased based on files from either Vital Statistics, Social Security Administration or both. Eliminating all deceased from the 239,333, there are 202,038 individual records remaining.

- 37,295 deceased

Out of the 202,038, we determined 174,766 people have held a South Carolina ID or DL at some point. This includes some active credentials; however, the vast majority is cancelled or expired credentials. This total is based on a primary match of SSN with the remainder matching by date of birth, complete last name and a complete or partial first name. Below is a breakdown of active, expired and cancelled credentials:

Active--20,508 (e.g. DL/ID expiration date in future)

Expired--58,241 (e.g. past DL/ID expiration; forgot to renew; moved and did not surrender DL/ID to new state; incarcerated)

Cancelled--96,017 (e.g. moved out of state and license returned; DL/ID returned due to suspension; DL/ID voluntarily surrendered)

Total of active, expired and cancelled: 174,766

We have found 21,040 customers on the Election Commission file that cannot be located in Phoenix or on the "death file" accumulated by DMV and another 6,232 customer that have a DMV record, but a credential or ID could not be located. With that said, there could be approximately 27,272 (page 7 of handout) customers in SC who are registered to vote but may not have a South Carolina DL/ID. Below is the age range for these customers:

<u>Age</u>	<u>Total</u>	<u>Age</u>	<u>Total</u>

40-49	3,355	90-99	1,547

Out of the 27,272 individuals, approximately 57% are under age 50.

**RE:** Interview of Executive Director Marci Andino, State Election Commission

---

On January 17, 2012, and other dates, up to including April 5, 2012, Marci Andino, Executive Director, South Carolina Election Commission, 2221 Devine St., Columbia, SC 29250, telephone (803) 734-9001, was interviewed and furnished the following information:

The South Carolina Election Commission has approximately 2.7 million active voters in their data base system. The active voter list is purged when information is received from the Bureau of Vital Statistics, Department of Court Administration and other sources. The Bureau of Vital Statistics and Department of Court Administration generally supplies their list on a monthly basis.

In Sept. of 2011, DMV provided their list consisting of individuals who have active driver's license or a credential from DMV. This list is then compared to the active voter list and, as a result, there were 216,000 active voters and 20,000 inactive voters that were not on the list from DMV. Director Andino advised that the inactive voters were included in the list at the request of the South Carolina Attorney General's Office. The list of 236,000 was then furnished to the DMV and they compared the list to their data base and ultimately returned the list of 239,333, which was a little over 3,000 additional names.

Director Andino advised that DMV identified 37,295 deceased individuals from the list of 239,333. At this point, the Election Commission went to the Bureau of Vital Statistics, who furnished a list of deceased individuals for the past 5 or 6 years. This list was then run against the

approximately 2,700,000 active voters list in the system.

Director Andino stated that the list provided to DMV included the date last voted. DMV then came up with information indicating that 953 individuals had voted after death. The list of 953, who were alleged to have voted after death, was compared to the 2010 General Election voters and, as a result, 207 were identified as having voted in the 2010 election.

Director Andino advised that, out of the 953 alleged dead voters, there were around 200 she refers to as data matching errors, such as different names.

Director Andino advised that, after the publicity concerning the 953 dead voters, she and her staff conducted an extensive research of the records relating to the 207 individuals, who were identified as having voted in the 2010 General Election. The results of their research were as follows:

1. 106 were clerical errors by poll managers.
2. 56 were the result of bad data matching.
3. 32 were voter participation/scanning errors.
4. 3 were a result of absentee ballots given to individuals, who died before election day.
5. 10 insufficient information to make a determination.

Director Andino advised that she prepared a letter that was addressed to the Honorable Alan Wilson, Attorney General of South Carolina, setting forth the Election Commission results in detail (copy of letter attached).

Director Andino advised that the research of records concerning this matter has been extremely costly to the South Carolina Election Commission, as well as an extensive amount of time and resources. She felt that to continue additional research beyond the 2010 General Election would

interfere with the agency's responsibilities. She advised that all the records relating to their research has been turned over to the State Law Enforcement Division and her agency will continue to cooperate in the investigation.

Dear Mr. Attorney General:

The State Election Commission (SEC) has completed a partial review of information provided by the S.C. Department of Motor Vehicles (DMV) suggesting 953 votes had been cast in the name of deceased voters. The information related to 74 separate elections dating back to April 5, 2005. Due to the size and scope of the task of examining every claim, the review was limited to the 207 cases related to the 2010 General Election. Investigation of every claim would require more than 1,000 hours of work by SEC employees examining thousands of paper records housed in locations throughout the state:

- More than 900 voter registration lists used to record a voter's participation at the polls. These lists are stored in hundreds of boxes housed off-site at the State Records Center (SRC). Once the box is located and retrieved from the SRC, the list must be located within the box, which may contain lists from more than 100 precincts.
- More than 900 poll lists, which are signed by voters at the polling place before being issued a ballot. These lists are stored in the boxes with the voter registration lists housed at SRC, but the poll lists are not attached to the corresponding voter registration lists and many times are not even in the same box.
- Hundreds of original, paper voter registration applications stored in each of the 46 county voter registration offices. These applications are used to corroborate signatures.
- Numerous original, paper absentee ballot applications stored in each of the 46 county voter registration offices.

The SEC has 15 full-time employees, all of which are dedicated to working on numerous existing responsibilities including redistricting, implementation of a new voter registration system, and preparation for March filing and the June Primaries. The SEC recognized the importance of providing the public with timely information regarding these claims considering the lingering perception that hundreds of illegal votes had been cast in recent election. With limited time and resources, the SEC chose to examine the 207 cases related to the largest, most recent election – the 2010 General Election – along with the municipal and other local elections held on that date.

Nearly half of the SEC staff has spent more than 200 hours working over the past four weeks to gather the necessary information and examine each record to make determinations, if possible. The investigation found that 197 of these instances are not cases of votes being cast fraudulently in the name of deceased voters.

The records show:

- 106 cases were the result of clerical errors by poll managers.
  - 91 cases were name recognition errors such as marking the deceased John Doe, Sr. as voting when John Doe, Jr. actually voted
  - In 6 cases, the poll manager apparently began marking incorrect voter, realized mistake, but did not erase the original marks
  - In 5 cases, election officials marked the wrong voter as voting absentee
  - In 3 cases, election officials issued the absentee application in the wrong name
- 56 cases were the result of bad data matching. In these cases, it appears DMV used only the voter's social security number to match against the death file. The voters' names and dates of birth in these cases do not match the names and dates of birth in the death file. In these cases, there is no indication that the voter is deceased.
- 32 cases were voter participation errors. Voter registration lists marked by poll managers are scanned electronically to record voter participation in each election. Stray marks on the lists and the sensitivity of the automatic scanner can lead to voters erroneously being given credit for voting in an election. In all of these cases, there is no corroborative information on voter registration lists, poll lists, or absentee applications indicating the voter actually voted.
- 3 cases were the result of absentee ballots being issued to a voter, who then died before Election Day.
- ✓ • 10 cases had insufficient information in the record to make a determination:
  - In 7 cases, the signature on the poll list could not be matched to another voter
  - In 2 cases, the poll list is missing making it impossible to match the signature to another person
  - In 1 case, the signature on the poll list seems to match a voter in another precinct but could not be verified.

The investigation of these claims has been very costly to the Agency in both time and resources. Continuation of the investigation beyond the 2010 General Election would have a negative impact on existing Agency responsibilities. Therefore, it is not feasible for the SEC to extend the investigation at this point. All records and analysis associated with this investigation have been provided to the State Law Enforcement Division. If your office or the State Law Enforcement Division determines there is cause to extend the investigation, the SEC stands ready to assist in any way that we can. Also know that extending the investigation to elections that occurred earlier than the 2010 General Election will present an additional hurdle, as absentee ballot applications are not required to be retained later than 24 months after the associated election.

If you have any questions regarding the SEC's investigation and analysis, please let me know.

Sincerely,

*Marci Andino*

- 106 cases were the result of clerical errors by poll managers.
    - 91 cases were name recognition errors such as marking the deceased John Doe, Sr. as voting when John Doe, Jr. actually voted
    - In 6 cases, the poll manager apparently began marking incorrect voter, realized mistake, but did not erase the original marks
    - In 5 cases, election officials marked the wrong voter as voting absentee
    - In 3 cases, election officials issued the absentee application in the wrong name
  - 56 cases were the result of bad data matching. In these cases, it appears DMV used only the voter's social security number to match against the death file. The voters' names and dates of birth in these cases do not match the names and dates of birth in the death file. In these cases, there is no indication that the voter is deceased.
  - 32 cases were voter participation errors. Voter registration lists marked by poll managers are scanned electronically to record voter participation in each election. Stray marks on the lists and the sensitivity of the automatic scanner can lead to voters erroneously being given credit for voting in an election. In all of these cases, there is no corroborative information on voter registration lists, poll lists, or absentee applications indicating the voter actually voted.
  - 3 cases were the result of absentee ballots being issued to a voter, who then died before Election Day.
  - 10 cases had insufficient information in the record to make a determination:
    - In 7 cases, the signature on the poll list could not be matched to another voter
    - In 2 cases, the poll list is missing making it impossible to match the signature to another person
    - In 1 case, the signature on the poll list seems to match a voter in another precinct but could not be verified.

The investigation of these claims has been very costly to the Agency in both time and resources. Continuation of the investigation beyond the 2010 General Election would have a negative impact on existing Agency responsibilities. Therefore, it is not feasible for the SEC to extend the investigation at this point. All records and analysis associated with this investigation have been provided to the State Law Enforcement Division. If your office or the State Law Enforcement Division determines there is cause to extend the investigation, the SEC stands ready to assist in any way that we can. Also know that extending the investigation to elections that occurred earlier than the 2010 General Election will present an additional hurdle, as absentee ballot applications are not required to be retained later than 24 months after the associated election.

If you have any questions regarding the SEC's investigation and analysis, please let me know.

Sincerely,

*Marci Andino*

That would have included the 2010 general

only election she has been given credit to have voted in

She did not get credit for voting in the 2010 although she did - Her deceased husband did get credit which was mistakenly given instead of her.

Subject: Summary - 10 Inconclusive

Marci,

Here are the ten voters for which a determination could not be reached:

1. Joe B. Dove – Anderson – Cannot match signature – Son may have voted, and the deceased father given credit. There is a living “Joe B. Dove, Jr.” at the same address, but the signature on the poll list doesn’t seem to clearly match the signature on the voter registration application. The voter registration application is dated 1978.
2. James Green – Charleston – Cannot match signature – Poll manager may have allowed some other “James Green” to vote – “James Green” signed poll list. There are more than 50 voters with the name “James Green” (or variant) in Charleston County. Precinct is in a highly concentrated downtown area with many other precincts nearby.
3. Ruth Middleton – Charleston – Signature illegible – Poll manager may have given wrong voter credit for voting, but unable to confirm due to nature of signature.
4. Ed L. Johnson – Florence – Poll list missing – Poll manager may have marked wrong voter. There is an “Ed L. Johnson, Jr.” on the voter registration list, but he is marked as voting as well. There is no poll list to check signature.
5. Zeb M. Thomas – Horry – Signature illegible – Son may have voted, and the deceased father given credit. There is a “Zeb M. Thomas, Jr.” on the poll list who is not marked as voting. Unable to confirm due to nature of signature.
6. James R. Davis, Jr. – Lexington – Signature illegible – Father may have voted, and the deceased son given credit. There is a “James Randall Davis” on the poll list who is not marked as voting. Unable to confirm due to nature of signature.
7. Jacob A. Holmes – Richland – Cannot match signature – Son may have voted, and the deceased father given credit. “J. Arthur Holmes” signed poll list. There is a “Jacob A. Holmes, Jr.” in the same precinct who did not get credit for voting. The signature on the poll list doesn’t seem to clearly match either voter’s signature on the voter registration applications.
8. Doris M. Lee – Richland – Signature matches voter not in precinct – Daughter may have voted, and deceased mother given credit. “Doris Lee” signed the poll list. There is another Doris Lee registered in a nearby precinct (Rice Creek). The signature on the poll list seems to match the other “Doris Lee’s” voter registration application. The other “Doris Lee” was not given credit for voting in her resident precinct.
9. Elbert R. Thompson – Spartanburg – Poll list missing – Father/son may have voted, and deceased father/son given credit. There is an “Ed L. Johnson, Jr.” on the voter registration list who is not marked as voting. Unable to confirm because poll list is missing.
10. Arthur E. Gose, Jr. – Sumter – Cannot match signature – Poll manager may have allowed son to vote, and father given credit. “Art Gose” signed poll list. Father’s obituary lists father as “Ted” and son as “Art.” Can find no record of son being a registered voter in Sumter County.

### Summary:

- 4 – Cannot match signature
- 3 – Cannot match signature (signature illegible)
- 2 – Poll list missing
- 1 – Signature matches voter of same name not in precinct

Thank you.

## Memorandum

**To:** Case File # 32-12-0008

**From:** S/A Stephen L. Howell

**Date:** March 9, 2012

**Subject:** Vote of Arthur E. Gose Jr. on November 2, 2010

---

On January 31, 2012, Agent Howell met with SC Election Commission Executive Director Andino, SC Attorney General's Office Special Investigator Logan, Lt. Littlejohn, and Agents Corley, Flowers, and Williams, at the SC Election Commission Office in Columbia, in reference to voting issues surrounding the general election held on November 2, 2010. Subsequent to that meeting, Agent Howell received a request from Lt. Littlejohn for additional information regarding the purported vote by Arthur E. Gose Jr., of 16 Warren St. in Sumter, SC. The "Arthur E. Gose Jr." referenced was deceased prior to the election, and the validity of the vote was in question.

Agent Howell reviewed the material provided by the SC Election commission, which is now made a part of this memorandum, and noted that Arthur E. Gose Jr. had a son named after him.

Agent Howell located the son in SCDMV records and noted that he was listed as residing at the same residence, 16 Warren St., Sumter, SC.

On March 9, 2012, Agent Howell met with Arthur E. Gose III in the parking lot of his place of employment (The Riverbanks Zoo) in Columbia, SC. Arthur E. Gose III now resides at 800 Alexander Road in Cayce, SC. He recalled voting in the November 2, 2010 election, and stated that it was the only time he has ever voted. He reviewed the listing for "Arthur E. Gose Jr." on the Voter Registration List and stated that it his father's information. He reviewed the signature "Art Gose" on the poll list and stated that it was his (Arthur E. Gose III's) signature. Agent Howell asked Arthur E. Gose III if he registered to vote. He stated that he did not remember doing that.

## Memorandum

**To:** Case File # 32-12-0008  
**From:** S/A Stephen L. Howell  
**Date:** March 7, 2012  
**Subject:** Vote of Ed L. Johnson on November 2, 2010

---

On January 31, 2012, Agent Howell met with SC Election Commission Executive Director Andino, SC Attorney General's Office Special Investigator Logan, Lt. Littlejohn, and Agents Corley, Flowers, and Williams, at the SC Election Commission Office in Columbia, in reference to voting issues surrounding the general election held on November 2, 2010. Subsequent to that meeting, Agent Howell received a request from Lt. Littlejohn for additional information regarding the purported vote by Ed L. Johnson, of 434 Poor Farm Road in Florence, SC. The "Ed L. Johnson" referenced was deceased prior to the election, and the validity of the vote was in question.

Agent Howell reviewed the material provided by the SC Election commission, which is now made a part of this memorandum, and noted that an "Ed L. Johnson Jr." was listed as having

voted in that election per the Voter Registration List. Agent Howell searched SCDMV records and found that Ed L. Johnson Jr. was in fact, Ed Larue Johnson Jr. The Ed L. Johnson listed as deceased was Ed Louis Johnson. SCDMV records indicated that Ed Larue Johnson Jr. and his father, Ed Larue Johnson Sr., live at the same address – 459 Garrett Circle in Florence, SC.

Agent Howell spoke with Ed L. Johnson Jr. via phone on March 6, 2012 and again on March 7, 2012. Ed L. Johnson Jr. stated that he voted in the election in question, but that his father, Ed L. Johnson Sr. did not. Ed L. Johnson Sr. only votes in elections where the President of the United States is being selected and last voted in the presidential election of 2008. Ed L. Johnson Sr.'s name did not appear on the Voter Registration List for the November 2, 2010 election. Ed L. Johnson Jr. stated that there may be another "Ed Johnson" in the community. He based this possibility on the fact that his grandmother told him that she continues to get calls for another "Ed Johnson" since her husband has passed away.

Agent Howell reviewed the Voter Registration List and did not find any other close semblances to "Ed Johnson" listed. Agent Howell further noted that the voter above the questioned vote, Dorothy F. Johnson, was shown to have voted as well, thus reducing the chances that her sign-in was transposed downward in error.

Agent Howell contacted the SC Election Commission Office and verified that there were no additional voters bearing names similar to "Ed Johnson" registered to vote at the same polling place where the questioned vote was purportedly cast.

Agent Howell was advised, through the documentation provided by the SC Election Commission, that the poll list for this polling place could not be located. Therefore, further investigation based on the listed signature(s) cannot proceed. No other means of advancing the inquiry into this vote toward a definitive conclusion are readily apparent at this time.

## Memorandum

**To:** Case File # 32-12-0008  
**From:** S/A Stephen L. Howell  
**Date:** March 5, 2012  
**Subject:** Vote of Zeb M. Thomas on November 2, 2010

---

On January 31, 2012, Agent Howell met with SC Election Commission Executive Director Andino, SC Attorney General's Office Special Investigator Logan, Lt. Littlejohn, and Agents Corley, Flowers, and Williams, at the SC Election Commission Office in Columbia, in reference to voting issues surrounding the general election held on November 2, 2010. Subsequent to that meeting, Agent Howell received a request from Lt. Littlejohn for additional information regarding the purported vote by Zeb M. Thomas, of 2400 North Ocean Blvd. in Myrtle Beach, SC. The "Zeb M. Thomas" referenced was deceased prior to the election, and the validity of the vote was in question.

Agent Howell reviewed the material provided by the SC Election commission, which is now made a part of this memorandum, and noted that Zeb M. Thomas Jr., of 404 35<sup>th</sup> Ave. North,

Myrtle Beach was not marked as having voted in that election on the Voter Registration List used at the polling place.

On March 5, 2012, Agents Howell and Johnson traveled to Myrtle Beach, SC, where Agent Howell made contact with Zeb M. Thomas Jr. in the parking area of the Dayton House Resort on 25<sup>th</sup> Ave. North. Zeb M. Thomas Jr. stated that he voted in the November 2, 2010 election, and verified that the signature on line sixteen of the poll list was indeed "his scribble." He reviewed the Voter Registration List and noted that the Zeb M. Thomas listed as living at 2400 North Ocean Blvd was his father who had passed away. In explanation of the error, he stated simply that he "signed where they told him to sign."

TO: Case File 32-12-0008

FROM: SA Elizabeth Corley

RE: Joe B. Dove, Jr.

DATE: March 6, 2012

### Summary of Interview

On March 6, 2012, SA Elizabeth Corley interviewed Joe B. Dove, Jr. at Berry Plastics, his place of employment, on Worley Road in Greenville, SC. The interview was in reference his deceased father getting credit for voting in the 2010 statewide election.

Dove explained to SA Corley that his father, Joe B. Dove, Sr., passed away on January 19, 2009. Joe Dove, Jr., stated that he did vote in the 2010 election. He stated that the poll worker advised him when he arrived at the polling place that there were two Joe Dove's. Joe Dove, Jr. stated he advised the poll worker that that his father, Joe Dove, Sr. had recently passed away. He stated he jokingly told the poll worker that he would have to be the "senior" now. Joe Dove, Jr. stated that is probably where the mistake occurred. He also verified that the signature on the poll list was his. See attached Election Commission Documents.

## MEMORANDUM

TO: Case File 32-12-0008

FROM: SA Elizabeth Corley

RE: Elbert R. Thompson

DATE: March 6, 2012

SA Elizabeth Corley conducted a preliminary inquiry into Elbert R. Thompson voting in the 2010 statewide election. Thompson was marked on the voter registration list as voting in the election; however, he passed away on January 29, 2008. According to the State Elections Commission, there are two Elbert Thompson's that are registered to vote. One is Elbert R. Thompson (Father) and the other is just Elbert Thompson (Son) who both resided at the same address. SA Corley attempted to interview Elbert Thompson who has since moved from the address that is on his voter registration. SA Corley attempted to locate Mr. Thompson and was unable to do so. SA Corley confirmed that the Elbert Thompson is registered to vote. Although SA Corley cannot verify that Elbert Thompson voted, It appears based on my training and experience that Elbert R. Thompson (Deceased) was marked by accident.

## Memorandum of Interview

**TO:** South Carolina Election Commission  
**FROM:** SS/A James Flowers  
**RE:** Deceased Voter Investigation (**Doris M. Lee**)  
**COUNTY:** Richland

### Summary

SS/A James Flowers was tasked to determine how a deceased person was given credit for voting in the 2010 South Carolina General Election. Doris M. Lee of 307 Lee Rd. in Columbia S.C. was credited with voting in Richland County after having been deceased. In comparing the Voter Registration List for the precinct, it was determined that Doris Harbour Lee of 20 Fox Knolls Ct. in Columbia, S.C. was registered in a nearby precinct and was not credited with voting. It is believed that Doris Harbour Lee was credited for voting for Doris M. Lee in the wrong precinct..

On 03/01/2012, SS/A Flowers spoke with Doris Harbour Lee and determined that she did vote in that election. She stated that she went to many different precincts because she didn't know where her precinct was. She ended up voting at Rice Creek Precinct. Doris Harbour Lee verified her signature on the Voter Signature Page. This page credited the vote to Doris M. Lee.

## Memorandum of Interview

**TO:** South Carolina Election Commission  
**FROM:** SS/A James Flowers  
**RE:** Deceased Voter Investigation (**Jacob A. Holmes**)  
**COUNTY:** Richland

### Summary

SS/A James Flowers was tasked to determine how a deceased person was given credit for voting in the 2010 South Carolina General Election. Jacob A. Holmes of 3135 E Windwood Place in Columbia S.C. was credited with voting in Richland County after having been deceased. In comparing the Voter Registration List for the precinct, it was determined that Jacob A. Holmes and Jacob A. Holmes Jr. were both registered at the same residence and at the same precinct. It is believed that Holmes, Jr. was credited for voting for his father.

On 03/01/2012, SS/A Flowers spoke with Jacob A. Holmes Jr. and determined that he did vote in that election. Holmes, Jr. verified his signature on the Voter Signature Page. He was not given credit for voting himself.

**TO:** South Carolina Election Commission  
**FROM:** SS/A James Flowers  
**RE:** Deceased Voter Investigation (**James R. Davis Jr.**)

## Memorandum

**To:** Case File # 32-12-0008  
**From:** S/A Stephen L. Howell  
**Date:** May 11, 2012  
**Subject:** Vote of Thomas Williams on November 2, 2010

---

On January 31, 2012, Agent Howell met with SC Election Commission Executive Director Andino, SC Attorney General's Office Special Investigator Logan, Lt. Littlejohn, and Agents Corley, Flowers, and Williams, at the SC Election Commission Office in Columbia, in reference to voting issues surrounding the general election held on November 2, 2010. Subsequent to that meeting, Agent Howell received a request from Lt. Littlejohn for additional information regarding the purported vote by Thomas Williams, of 165 Shady Side Road in Hemingway, SC. The "Thomas Williams" referenced was deceased prior to the election, and the validity of the vote was in question.

Agent Howell reviewed the material provided by the SC Election commission, which is now made a part of this memorandum, and noted that beside Thomas Williams' information on the

voter registration list, was a reference to page six, line ninety-one, on the poll list. The signature on the page and line referenced was "Latonya W. Rollen". Agent Howell obtained the SCDMV information for Latonya Wannette Rollen and noted that she resided at 44 Donnelly Street in Hemingway, SC.

On May 5, 2012, Agent Howell met with Latonya W. Rollen at her residence in Hemingway, SC. She reviewed the signature on the poll list and verified that it was her signature. She stated that she "always" votes. Agent Howell received additional information from the SC Election Commission showing that Latonya W. Rollen received credit for voting in the 2010 SC General Election. This information is now made a part of this memorandum.

Agent Howell noted that the name of Tonya G. Williams was located directly under Thomas Williams' name on the voter registration list. On May 9, 2012, Agent Howell spoke to Tonya G. Williams via telephone. She stated that she is certain she voted in the presidential election in 2008, but as she votes only sporadically, she cannot say for sure whether she voted in 2010 or not. Agent Howell received additional information from the SC Election Commission showing that Tonya G. Williams did not receive credit for voting in the 2010 SC General Election. This information is now made a part of this memorandum.

No other means of advancing the inquiry into this vote toward a definitive conclusion are readily apparent at this time.

**TO:** File 32-12-0008  
**FROM:** Lt. William Littlejohn  
**RE:** Deceased Voter Inquiry  
**DATE:** May 3, 2012

On May 2, 2012, Lt. William Littlejohn met with South Carolina Election Commission Director Marci Andino for clarification of how a deceased voter (James L. Warnock, date of death August, 2008) received credit for voting in the 2010 general election. Andino explained the documentation associated with Warnock came from a precinct that used an electronic voter registration list (EVRL). The likely process by which this occurs is a voter would provide his/her identification to the poll manager or poll worker who, in turn, keys the information into the EVRL. There is a possibility that the poll worker inaccurately keyed in the name and, as a result, Warnock's name was credited as having voted. Upon further review of the voter sign-in page, it is clear that the signature does not belong to James L. Warnock. Additionally, it is unclear who the signature belongs to and the EVRL does not provide any other information that would assist in identifying the actual voter. As a result, a definitive conclusion is unable to be reached.

**Voters Oath - Please read:** I do solemnly swear or affirm that I am qualified to vote at this election according to the Constitution of this State and that I have not voted during this election.
